

# Be My Neighbor

## GROWING TOGETHER

Community gardens help us build strong neighborhoods by working together. These gardens add life and beauty to our neighborhoods, and are a great option for those who do not have gardening space available at home. Community gardens are available throughout Utah. Use the resources below to find a community garden near you, or start a community garden in your neighborhood if you do not have one already.

### DANIEL TIGER'S NEIGHBORHOOD APPLICATION

Working in a community garden can help children learn the importance of taking care of our neighborhoods. In episode 122, "Neighborhood Clean Up" Daniel Tiger and his friends learn how to work together to clean up their neighborhood after a storm. Watch with children and explain that it is everyone's responsibility to take care of the places we live, work, and play. Community gardens let everyone participate in keeping the neighborhood beautiful and healthy.
